

Dominik Goddeke - **University of Stuttgart, Germany**

Talk title	Title to be confirmed
Biography	Dominik Goddeke studied Computer Science and Mathematics at TU Dortmund, Germany, and graduated with a PhD thesis on "GPU Computing for PDEs" in 2010. He is one of the (very) early adopters of GPU Computing in Germany, having started in 2004. After holding a junior (assistant) professorship for "Hardware-oriented Numerics" at TU Dortmund, he has accepted permanent chair position for "Computational Mathematics" at the University of Stuttgart, Germany, in 2015. Since then, he is involved in a range of activities, such as the Cluster of Excellence "SimTech -- Data-integrated simulation science", the "Mathematical Research Data Initiative (MaRDI)", the priority programme "Software for exascale computing", and many more.
